## PROFILE

Hardworking and project-oriented final-year cybersecurity undergraduate with a solid background in network defense, threat detection, and risk assessment. Familiar with developed security software including Kali Linux, Wireshark, and ELK Stack to monitor and analyze in real-time. Enthusiastic about the creation of safe systems, experimentation with new technologies, and the resolution of intricate cybersecurity issues.

## EDUCATION

- SLTC Research University 2022 – Present
  - BSc (Hons) in Cyber Security
- Mahinda Rajapaksha College – Homagama 2012 –2019
  - A/L Maths Stream (2020) B C S
  - G.C.E. O/L (2016) 6A 2B 1C
- Prince Of Wales College – Moratuwa 2011
- Dharmashoka College – Maharagama 2006 –2010

## WORK EXPERIENCE

- Coco Wonder Herbals (PVT) LTD 2020 – Present  
Customer Co-ordinator
  - Facilitate communication and coordination with the customers in order to run the daily operations smoothly.
  - Help in the planning and scheduling of the production and logistics teams.
  - Organization of support projects, tracking of tasks, and reporting.
  - Enhanced teamwork, time management, and communication skills at the same time as managing the academic requirements.

## EXPERIENCE & PROJECTS

- Final Year Project | SLTC Research University 2024 – Present  
Cybersecurity Dashboard with Analytics
  - Developed a real-time threat detection dashboard using the ELK Stack (Elasticsearch, Logstash, Kibana).
  - Integrated machine learning (Isolation Forest) to detect brute-force attacks and abnormal access behavior.
- Coursework Project | DuBeauty 2023  
Network Risk Assessment Project
  - Conducted vulnerability assessments.
  - Applied NIST Cybersecurity Framework to evaluate and document organizational risks.
  - Recommended risk mitigation strategies to improve network resilience.
